

ANSHIKA

+91-8570834950 — Delhi, India — anshika022bteceai24@igdtuw.ac.in — linkedin.com/in/anshika411 — github.com/anshika411

EDUCATION

Indira Gandhi Delhi Technical University for Women (IGDTUW), Delhi **CGPA: 7.72/10**
Bachelor of Technology – Electronics & Communication Engineering (Artificial Intelligence) *Expected: May 2028*
RPS Public School, Kosli (Rewari) *Senior Secondary (CBSE): 89.6% — Secondary (CBSE): 95.2%*

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, JavaScript (ES6+), HTML5, CSS3, R, SQL
- **Frameworks & Libraries:** React.js, Node.js, Express.js, LangChain, pandas, NumPy, Matplotlib, scikit-learn, PyPDF2
- **AI/ML Tools:** Hugging Face Transformers, Gradio, Natural Language Processing (NLP), Retrieval-Augmented Generation (RAG), FAISS, Vector Embeddings, Prompt Engineering
- **Web Technologies:** RESTful APIs, JSON, DOM Manipulation, Responsive Web Design
- **Developer Tools:** Git, GitHub, VS Code, PyCharm, Google Cloud Platform (GCP), Linux, Jupyter Notebook
- **Core Competencies:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), AI Agent Development, Machine Learning

PROJECTS

- PDF Q&A Assistant – RAG-based NLP System** *Python, LangChain, Hugging Face, FAISS, Gradio — GitHub*
- Architected and deployed an end-to-end Retrieval-Augmented Generation (RAG) system integrating Large Language Models (LLMs) with a FAISS vector store, achieving **95% answer accuracy** on benchmark document queries.
 - Optimized semantic search pipeline using Hugging Face Transformer-based vector embeddings, reducing query response latency by **40%**; automated multi-page PDF ingestion via PyPDF2 text extraction and chunk indexing.
 - Engineered LangChain prompt engineering workflows to maximize LLM context utilization and retrieval precision; deployed real-time Gradio web interface for user-facing document Q&A interaction.
- CareConnect – Full-Stack Healthcare Web Application** *HTML5, CSS3, JavaScript, RESTful APIs — GitHub*
- Designed and developed a full-stack responsive healthcare web application featuring **10+ dynamic UI components**; implemented RESTful API integration, JavaScript ES6+ DOM manipulation, and event-driven architecture.
 - Delivered mobile-first responsive UI using CSS3 Flexbox and Grid layouts, ensuring cross-browser compatibility across **5+ device types**; improved page load performance through lazy loading and modular component design.

RESEARCH

Cloud-based AI for Spam Detection: A Business-Centric Systematic Review

- Performed systematic **literature review of 30+ peer-reviewed papers**, evaluating supervised machine learning, NLP-based classification, and ensemble model approaches for enterprise-scale spam detection.
- Analyzed and compared production AI deployments across AWS SageMaker, Azure Machine Learning, and Google Cloud Platform (GCP) on metrics of model accuracy, system scalability, inference latency, and total cost; delivered a structured business deployment framework with actionable recommendations.

ACHIEVEMENTS

- **Reliance Foundation Scholarship (2024):** Selected from **100,000+ applicants** (Top 5%) for academic excellence and STEM leadership potential; awarded **Rs. 50,000/year**.
- **ICPC AlgoQueen:** Secured **Rank 43** among women competitive programmers nationwide; demonstrated advanced algorithmic problem-solving and data structures proficiency.
- **Udghosh – IIT Kanpur:** Achieved **Rank 9 nationwide** in IIT Kanpur's inter-college programming contest, competing against top engineering students across India.
- **JEE Mains 2024:** Scored **97.02 percentile** (Top 3% nationally, 1 million+ candidates); strong aptitude in Mathematics, Physics, and analytical reasoning.
- **NDA Written Examination:** Qualified UPSC-conducted NDA exam; demonstrated proficiency in Mathematics and General Ability Test (GAT).

CODING PROFILES

- **LeetCode (Profile):** Solved **200+ problems** covering arrays, dynamic programming, graphs, trees, and string manipulation; proficient in sliding window, binary search, recursion, backtracking, and hashing.
- **CodeChef (Profile):** Regular participant in Long Challenges, Starters, and Cook-Off rated contests; expertise in greedy algorithms, number theory, and implementation-based competitive programming.
